Maxim V. Eliseev

Eligible to work in the UK
Availability: in the UK from 25 April 2007

Date of Birth: 8 July 1978

PROFILE

A highly motivated and innovative **.NET SOFTWARE DEVELOPER** with full life cycle experience. Experienced in analysis, design and implementation using C#, ASP.NET, SQL Server. Dedicated to maintaining high quality standards, with strong problem solving skills.

ACHIEVEMENTS

- Successfully completed project (integration of Microsoft and non-Microsoft systems) as key developer/team leader (4 subordinates) – communication with customer, requirements analysis, team management, design, implementation, documentation, release management, deployment
- Successfully completed project (web site for a leading US company) in a team of 10. Independently completed complex tasks requiring communication with client, new requirements analysis, design of changes in the system, development of specifications, implementation.
- Decreased development time, number and severity of potential bugs, increased code quality, extensibility and maintainability of the application by proposing and implementing improvements in application's architecture and design (for example, introduced business logic layer)
- Conducted an introductory seminar for new project members; also mentored new project members and promoted best practices of coding. This helped new developers to work efficiently and produce higher quality code

KEY SKILLS

- Programming languages: **C#** (~2 years), VB.NET, T-SQL; familiar with C# 2.0
- Frameworks and libraries: **.NET Framework** (2 years), Windows Forms; familiar with .NET 2.0
- Internet Technologies: **ASP.NET**(1.5 years), **XML**, **Web Services**, JavaScript, IIS; familiar with ASP.NET 2.0
- Development tools: Microsoft Visual Studio.NET
- Databases: **MS SQL Server** (1.5 years)
- Other tools: MS Visio, MS Project, version control systems (Visual SourceSafe, Subversion)
- Methodologies: Object Oriented Programming (OOP), Object Oriented Design (OOD), Design Patterns, Agile methodologies, familiar with RUP, ISO9000
- Experience of **full project life cycle**
- Able to successfully communicate with remote development teams or customer representatives
- Striving to learn and apply best practices of architecture, design and coding
- Strong problem solving skills
